

ENGLISH (KS3)

We aim to provide a high quality, engaging and stimulating English education for all of our pupils. We believe that being able to read, write and communicate is fundamental to our pupil's future success and happiness. We hope that our pupils will gain a better understanding of themselves and others through our KS3 English curriculum. Our teaching programme is planned around themes across Key Stage 3. Throughout the year pupils will learn about literature, poetry, plays, writing, media, grammar and spelling and the spoken word. Pupils are regularly assessed in English using the Star Reading Test, NGRT reading, Suffolk Spelling and the teacher assessment of writing. Teaching is then individually tailored and targeted to meet the needs of each pupil whilst ensuring that pupils receive an English education that parallels that in mainstream school.
