

So what are warm and cool colours?

Warm

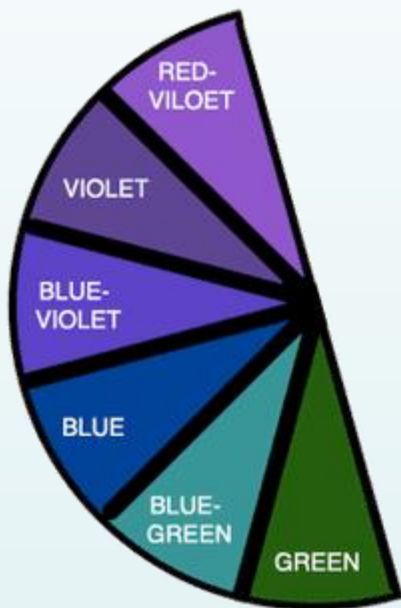

Cool

Think about warm and cool colour.

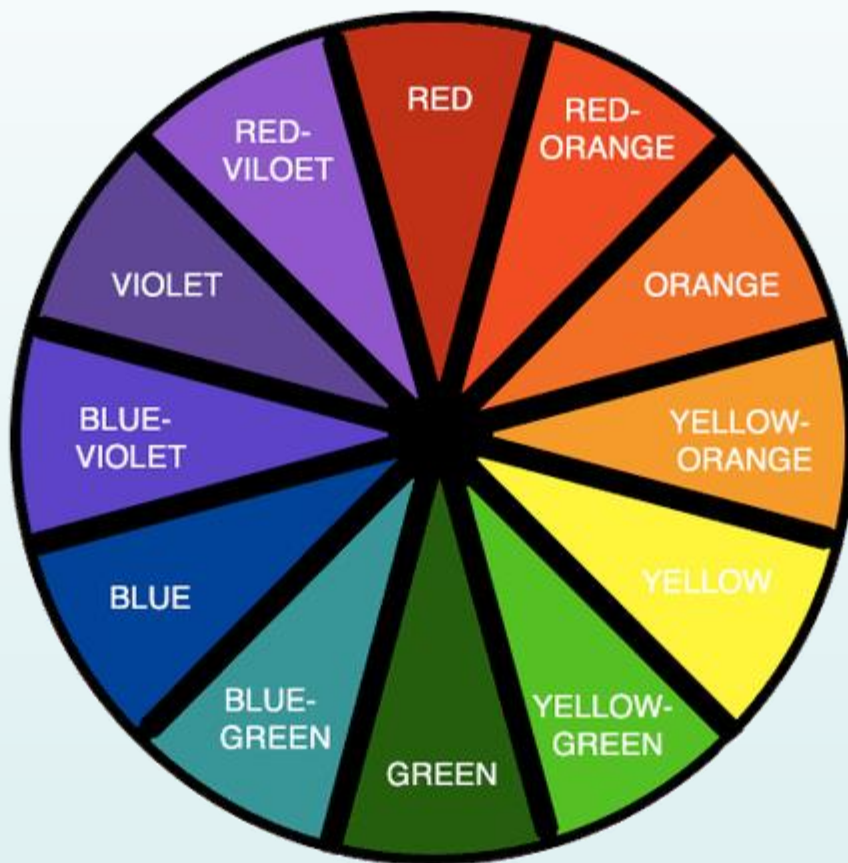

The colour wheel can be divided in half.

One side contains all the warm colours.

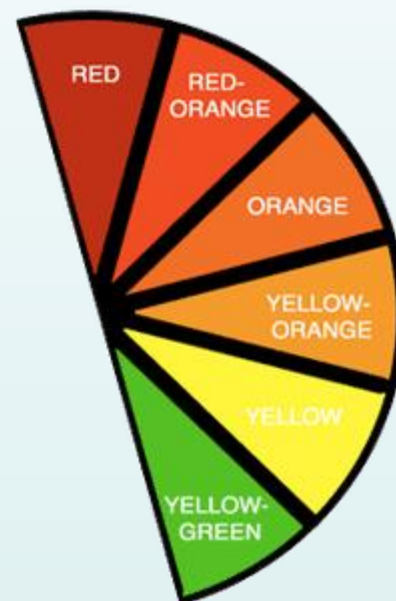

The other side contains all the cool colours.

Cool colours

Collage can be done by clipping different images on the internet and pasting them onto a document.

Collage can be done by cutting or ripping fragments from different coloured paper.

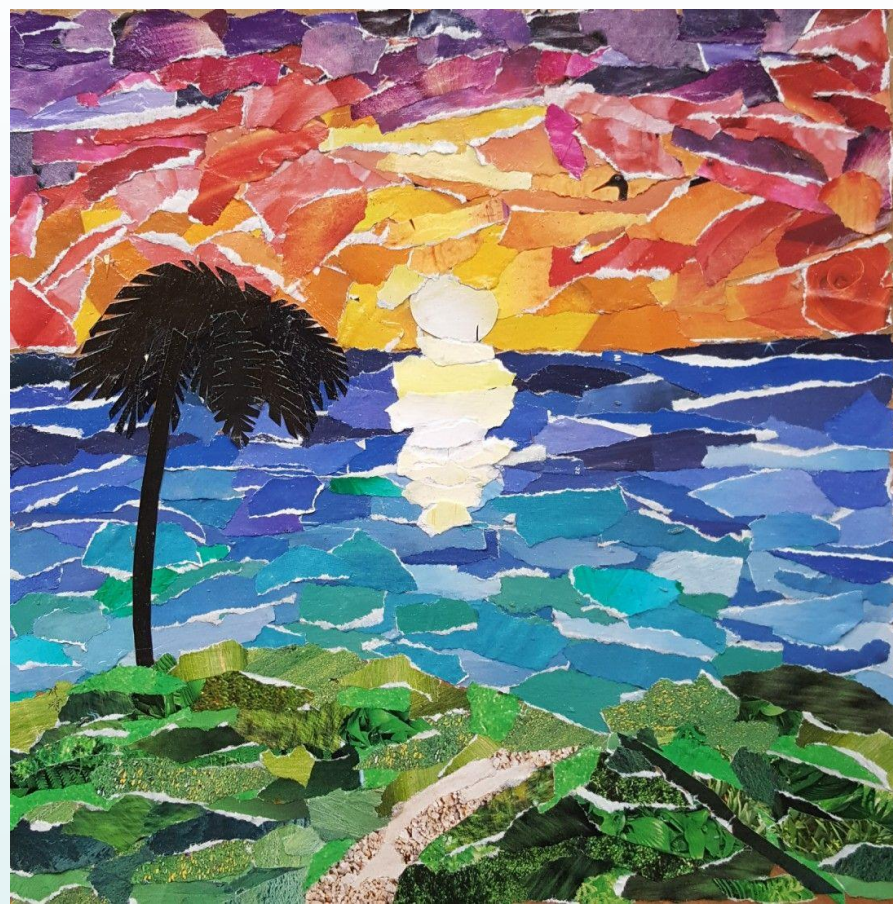

warm

cool

Collage can be done by drawing different shapes or using different art materials.

Collage can be done by carefully selecting different coloured fragments from magazines. You could cut or rip shapes from a newspaper and colour over them once they are glued into place.

Have a go, make a collage. Think about the colours you use. You could make a cool one or a warm one, or use a mixed of both. Have fun!
