

Year 7 & 8- Maths Long Term Plan

Aim - The course enables pupils to gain the skills and knowledge required to move them forward in maths during the general education. Sequencing is used throughout the programme to ensure knowledge is embedded to allow pupils the confidence to work towards their GCSE.

Term 1		Term 2		Term 3	
Learning Cycle 1	Learning Cycle 2	Learning Cycle 3	Learning Cycle 4	Learning Cycle 5	Learning Cycle 6
Baseline Assessment End of topic assessment	End of term assessment	End of topic assessment	End of term assessment	End of topic assessment	End of year assessment
<p>Intent:- Ratio and Scale Multiplicative Change</p> <p>Implementation:- Pupils will follow the curriculum as laid out in the Intent using the guidance of White Rose Maths https://whiterosemaths.com/ Pupils will be able to access all aspects of the learning cycle during lessons, working through work books and activities</p> <p>Impact Pupils will develop the mathematical skills and knowledge required at KS3 Mathematics</p>	<p>Intent:- Fractions and percentages Multiplying and dividing fractions</p> <p>Implementation:- Pupils will follow the curriculum as laid out in the Intent using the guidance of White Rose Maths https://whiterosemaths.com/ Pupils will be able to access all aspects of the learning cycle during lessons, working through work books and activities</p> <p>Impact Pupils will develop the mathematical skills and knowledge required at KS3 Mathematics</p>	<p>Intent:- Angles of Parallel lines</p> <p>Implementation:- Pupils will follow the curriculum as laid out in the Intent using the guidance of White Rose Maths https://whiterosemaths.com/ Pupils will be able to access all aspects of the learning cycle during lessons, working through work books and activities</p> <p>Impact Pupils will develop the mathematical skills and knowledge required at KS3 Mathematics</p>	<p>Intent:- Line, symmetry and reflection</p> <p>Implementation Pupils will follow the curriculum as laid out in the Intent using the guidance of White Rose Maths https://whiterosemaths.com/ Pupils will be able to access all aspects of the learning cycle during lessons, working through work books and activities</p> <p>Impact Pupils will develop the mathematical skills and knowledge required at KS3 Mathematics</p>	<p>Intent: - Area, Trapezia and Circles</p> <p>Implementation Pupils will follow the curriculum as laid out in the Intent using the guidance of White Rose Maths https://whiterosemaths.com/ Pupils will be able to access all aspects of the learning cycle during lessons, working through work books and activities</p> <p>Impact Pupils will develop the mathematical skills and knowledge required at KS3 Mathematics</p>	<p>Intent: Probability</p> <p>Implementation Pupils will follow the curriculum as laid out in the Intent using the guidance of White Rose Maths https://whiterosemaths.com/ Pupils will be able to access all aspects of the learning cycle during lessons, working through work books and activities</p> <p>Impact Pupils will develop the mathematical skills and knowledge required at KS3 Mathematics</p>
